MASSEGE

It is a matter of immense pleasure that HPSEB Pensioners Welfare Association is going to organize fourth General Conference on 5th June, 2019. A souvenir is also being brought out by the organizers to commemorate the occasion.

HPSEB has been working for providing electricity facilities in the State. HPSEB Pensioner Welfare Association has also been working for the welfare of society with its services.

I am sure that the conference would prove helpful to discuss various vital issues. I extend my best wishes for the successful event and hope that the souvenir would include useful and educational information.
