Message

It is great pleasure to know that the HPSEBL Pensioners Welfare Association is convening its 4th General Conference at Solan on 5th June, 2019 and a souvenir is being released to mark the occasion

The present day pensioners of HPSEBL are indeed those workers who toiled in the past to build this organization and bring it to the present heights of glory. Hence, it is the most appropriate moment to recognize and remember the past services of all pensioners of HPSEBL.

This type of celebration not only provides an opportunity to meet again after retirement but also provides a forum for discussion and vital issues concerning energy conservation, better services to the consumers and betterment of the organization.

I convey my heartiest wishes to all members of the Association.
