

Dr. JP Kalta

MESSAGE

I am extremely pleased to know that that State body of HPSEB Pensioner Welfare Association is organizing its 5th General Conference on 5th June 2019 and a souvenir is being brought out to celebrate the occasion.

HPSEBL pensioners were always and are an integral part of our social system and their contribution for the public in general and HPSEBL in particular is of an immense source of inspiration to the younger generation. Today's pensioners were active employees, who have played a great role in making Himachal a Power State and their contribution in this regard is appreciable. In future also, I expect to contribute whatever manner they can do with the same zeal for the welfare of public of this hilly State. Since all you are very experience and may prove as information Ambassadors of HPSEBL by providing useful information to the public in respect of Power Sector. In this world where the technical advancement is happening very rapidly, information era and information management has proved a great device for the upliftment of self, society and organization. To spread the Power Sector know how I am sure it will be great service to HPSEBL and public at large. I hope the pensioners shall have an opportunity to interact with each other, share their experiences during this conference.

I extend my best wishes to the organizers and participants and wish the General Conference a grand success.
